

The simple clamp HC 32

A price sensitive alternative to power
clamps and hinge cylinder

- American and European car manufacturers almost exclusively use pneumatic **toggle clamps** as clamping tools for car body construction

- In most Asian markets **hinge cylinders** are widely used

Power Clamp

- Sophisticated technology with
 - Full enclosed design
 - Integrated toggle mechanism
 - Over centre lock function
 - Standard mounting
 - Standard clamping arm

Hinge cylinder

- Simple technology with
 - Cheap standard hinge cylinder
 - Special design for brackets and clamp arm and bearing
 - No toggle system
 - No lock function

The alternative: new standard clamp HC 32

Pneumatic clamp reduced to a basic with

- Simple standard cylinder
- Standard bracket with standard mounting
- Standard clamp arm with standard mounting

optional casing
